New Program: If checked, this program is new. Therefore, the number of students who graduate, the number of students who are placed, or the starting salary you can earn after finishing the educational program are unknown at this time. Information regarding general salary and placement statistics may be available from government sources or from the institution, but is not equivalent to actual performance data.

An institution shall annually report to the bureau, as part of the annual report, and publish in its School Performance Fact Sheet, the completion rate for each program. Except as provided in subdivision (b), the completion rate shall be calculated by dividing the number of graduates by the number of students available for graduation. §94929 (a)

Calendar Year	Number of Students Who Began Program	Students Available for Graduation	Graduates ³	Completion Rate ⁴
2012	25	25	0	0%
2013	13	13	0	0%

Calendar Year	Number of Students Who Began Program ¹	Students Available for Graduation ²	150% Graduates ⁵	150% Completion Rate ⁶
2012	25	25	21	84%
2013	13	13	11	85%

¹ "Number of Students Who Began Program" is the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

² "Students available for graduation" is the number of students who began program minus the number of "Students unavailable for graduation," which means those students who have died, been incarcerated, or called to active military duty.

³ "Graduates" is the number of students who completed the program within 100% of the published program length.

⁴ "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

⁵ "150% Graduates" is the number of students who completed the program within 101-150% of the published program length.

⁶ "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

An institution shall annually report to the bureau, as part of the annual report, and shall publish in its School Performance Fact Sheet, all of the following: (a) The job placement rate, calculated by dividing the number of graduates employed in the field by the number of graduates available for employment for each program that is either (1) designed, or advertised, to lead to a particular career, or (2) advertised or promoted with any claim regarding job placement. §94929.5 (a)

¹ "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

² "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.

³ "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

⁴ "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment shall begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

⁵ Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

An institution shall annually report to the bureau, as part of the annual report, and shall publish in its School Performance Fact Sheet, all of the following: The license examination passage rates for the immediately preceding two years for programs leading to employment for which passage of a state licensing examination is required, calculated by dividing the number of graduates who pass the examination by the number of graduates who take the licensing examination the first time that the examination is available after completion of the educational program. The institution shall use state agency licensing data to calculate license examination passage rates. If those data are unavailable, the institution shall calculate the license examination passage rate in a manner consistent with regulations adopted by the bureau. §94929.5 (b)

Calendar Year	Number of Students Taking Exam ¹	Number Who Passed Exam ²	Number Who Failed Exam	Passage Rate ³

License examination passage data is not available from the State agency administering the examination. We were unable to collect the data from XX graduates..

¹ Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

² Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

³ Passage Rate is calculated by dividing the number of graduates who pass the exam the first time that they take it by the number of graduates who took the licensing exam for the first time after completion of the program.

Additionally, each institution that offers an educational program designed to lead to a particular career, occupation, vocation, trade, job, or job title shall disclose the wage and salary data for the particular career, occupation, trade, job, or job title, as provided by the Employment Development Department's Occupational Employment Statistics, if that data is available.
